THE AUGMENTED ABOMINATION 2

LARGE | DISEASED | AUGMENTED

Perception +11; Darkvision

Str +5, **Dex** +3, **Con** +5, **Int** +1, **Wis** +1, **Cha** +1

Reckless Attack (Rage, Risky) The creature can gain advantage on all attacks, however every attack against it will be at advantage

Unrelenting (Aggressive, Brutal) If this creature uses an additional action to Strike the same target, it does not take a multiple attack penalty for that Strike, but it takes a -5 circumstance penalty to AC until the start of its next turn

Unstable Mutation (Morph) The first time this creature would be reduced to 0 Hit Points, it instead remains at 30 Hit Points. It takes a –3 circumstance penalty to AC, gains resistance 2 to all damage, and gains a +2 circumstance bonus to attack rolls. Additionally, all actions and abilities with the **unstable mutation** trait become available, while all actions and abilities with the **sentient** trait are suppressed.

AC 17 (Scaled Body); **Fort** +12 (Scaled Body), **Ref** +8, **Will** +8

HP 40; **Resistances** slashing 2, bludgeoning 2, piercing 2, acid 2

Attack of Opportunity ↻ (sentient) When a creature leaves The Augmented's melee range, it can make a fist attack against them

Acidic Blood (unstable mutation) Whenever this creature is damaged by a Melee Attack, the attacker takes 1D6 acid damage

---

Speed 30

Melee ◆ fist +11 (strike, sentient), **Damage** 1d10+4 bludgeoning

Melee ◆ tendrils +13 (unstable mutation), **Damage** 1d12+4 piercing

Ability ◆◆◆ (recharge 5-6, after unstable mutation) The Augmented explodes in a 30-foot emanation before reconstituting. The Augmented rolls a number of d6 damage (determined by the GM) and takes that damage. Each creature in the area must attempt a DC 19 Reflex save. On a failure, a creature takes acid damage equal to the amount rolled; on a critical failure, it instead takes the maximum possible damage. The maximum possible damage can't exceed The Augmented's current Hit Points, and the number of d6 rolled can't exceed The Augmented's Hit Points divided by 6 (rounded up). The Augmented's AC is considered 10 and loses all resistances until the start of its next turn

---

An evolution to The Infected, the formula used appears to be more stable, giving the individual more draconic features; However the formula is still unstable, given time The Augmented becomes nothing more than a mass of flesh and void, writhing at anything nearby
